

## Environment

Decorient is committed to conducting its activities in an environmentally responsible manner.

To accomplish this, we will:

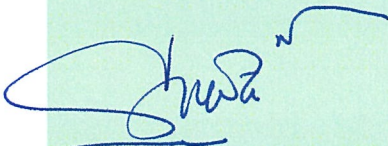

- Comply with relevant laws and regulations for the protection of the environment
- Integrate environmental protection by planning those activities under our control, to mitigate adverse environmental impacts
- Set and review environmental objectives, targets and outcomes with the aim of continual improvement and prevention of waste and pollution
- Protect environment by conserving resources through the efficient use of energy (fuel, water, electricity), minimize waste and reducing greenhouse gases
- Control air emissions from all equipment through service and maintenance program, regulated operations, and routine emissions measurements.
- Ensure that all chemicals used in our activities are controlled and prevent it to pollute the environment.
- Ensure hazardous waste is identified, transported and disposed of in an environmentally acceptable manner, in accordance with regulations
- Ensure conformity with this policy through employee commitment including audits utilizing our expertise and specialists
- Continually seek improvement of the effectiveness of our environmental management system

Our system is certified to ISO 14001:2015.

This policy applies to all Decorient controlled activities.
